

The logo consists of the letters 'Q1' in a bold, black, sans-serif font. A registered trademark symbol (®) is located at the top right of the '1'.

Q1[®]

A photograph of two painters in a room. One painter, a woman with long brown hair in a ponytail, is wearing a yellow t-shirt with a black 'Q1' logo and white work pants. She is standing on a silver step ladder, holding a paintbrush and a paint can, and is painting the top corner of a wall. The other painter, a man, is also wearing a yellow t-shirt and white work pants with black accents. He is standing on the floor, holding a paintbrush and a paint can, and is painting a circular hole in the wall. The room has white walls, a ceiling light fixture, and a window with a yellow frame. The floor is covered with cardboard boxes and paint cans.

3415 Q1® Multiple Purpose Masking Tape

Semi-crepe paper masking tape with a natural rubber adhesive for superior hold and clean removal within 7 days of application.

Versatility is a hallmark of the Q1® Multiple Purpose Masking Tape, as it seamlessly adapts to a multitude of surfaces and environments, making it suitable for both indoor and outdoor applications. Regardless of the complexity of the task at hand, this tape delivers unwavering consistency and precision, allowing painters to achieve exceptional results every time.

Its advanced adhesive technology ensures secure adherence, preventing paint bleed and guaranteeing flawless edges on every surface. It offers an excellence holding power for use with masking paper or film.

Features & Benefits

- Natural rubber adhesive for superior hold and clean removal
- Ideal for indoor use on both smooth and irregular surfaces
- No bleed through
- 7 days clean removal
- Tears neatly off the roll for effortless application

3560 Q1[®] Precision Line Masking Tape

The Q1[®] Precision Line Masking Tape is meticulously engineered to deliver impeccable paint lines with absolute sharpness, ensuring clean and well-defined edges on all surfaces. Its advanced adhesive formulation establishes a strong and reliable bond with various materials, including painted walls, glass, wood, and metal, while guaranteeing a residue-free removal, even after extended use.

Crafted from top-tier materials, this masking tape exhibits remarkable durability, effectively withstanding the challenges of painting, weather conditions, and UV exposure. Its versatility lends itself to a myriad of applications, accommodating intricate designs, straight lines, and curves alike, making it an indispensable tool for a wide range of projects.

Features & Benefits

- Ultra-thin paper for razor sharp paint edges
- 6 months indoor clean removal
- 3 months outdoor clean removal
- UV & Water Resistant
- Compatible with solvent and water-based paints

Sharp and precise edges
for a professional job.

3590 Q1[®] Sensitive Surface Masking Tape

Ultra-thin, low tack masking tape made from Washi Japanese paper.

the Q1[®] Sensitive Surface Masking Tape is specifically designed for use on freshly painted smooth or slightly textured surfaces, making it ideal for touch-ups and finishes. Its unique formulation ensures a seamless application, guaranteeing that delicate surfaces remain unscathed while facilitating a precise painting experience.

One of its standout features is the reliable assurance of easy and clean removal within 24 hours from the application. Q1[®] Sensitive Surface Masking Tape leaves no trace behind, maintaining the integrity of the painted surface and enhancing the overall aesthetic result.

Features & Benefits

- Japanese Washi Paper
- Special ultra-delicate adhesive formula for protecting sensitive surfaces
- 7 days clean removal from extremely delicate surfaces
- 14 days clean removal from common indoor surfaces (PVC, glass, wood, aluminum)
- 7 days UV resistance on indoor surfaces exposed to sunlight

Get the edge,
go pink.

3570 Q1® Delicate Surface Masking Tape

Q1® Delicate Surface Masking Tape, a premium solution for achieving flawless paint edges with utmost precision. This masking tape features an ultra-thin design crafted from authentic Washi Japanese paper, meticulously engineered to deliver razor-sharp delineations during painting tasks.

Tailored to meet the demands of airless spray and HVLP applications, this product excels in both indoor and outdoor settings, offering unparalleled performance. Its exceptional adhesion to smooth surfaces ensures a seamless application process.

Specifically designed for the preservation of delicate surfaces during the painting process, like for touch-ups and finishes on freshly painted surfaces, assuring easy and clean removal without leaving residues within 24 hours from the applications.

Features & Benefits

- Ultra-thin, low tack adhesion for protecting delicate surfaces
- 7 days indoor clean removal
- Gentle removal with no residue
- 24 hours clean removal on freshly painted surfaces
- Suitable for smooth and slightly surfaces

Q1® All Purpose Duct Tape

Q1® All Purpose Duct Tape, a versatile and indispensable tool suitable for a wide range of applications.

Designed for general repairs, bundling, patching, and mending, this high-quality duct tape provides reliable and durable solutions for various tasks.

Its exceptional adhesive properties make it an ideal choice for protecting surfaces and serving as a dependable sealant in both domestic and construction settings.

Crafted with precision and using the finest materials, this duct tape ensures long-lasting adhesion, making it suitable for use in demanding environments and challenging conditions.

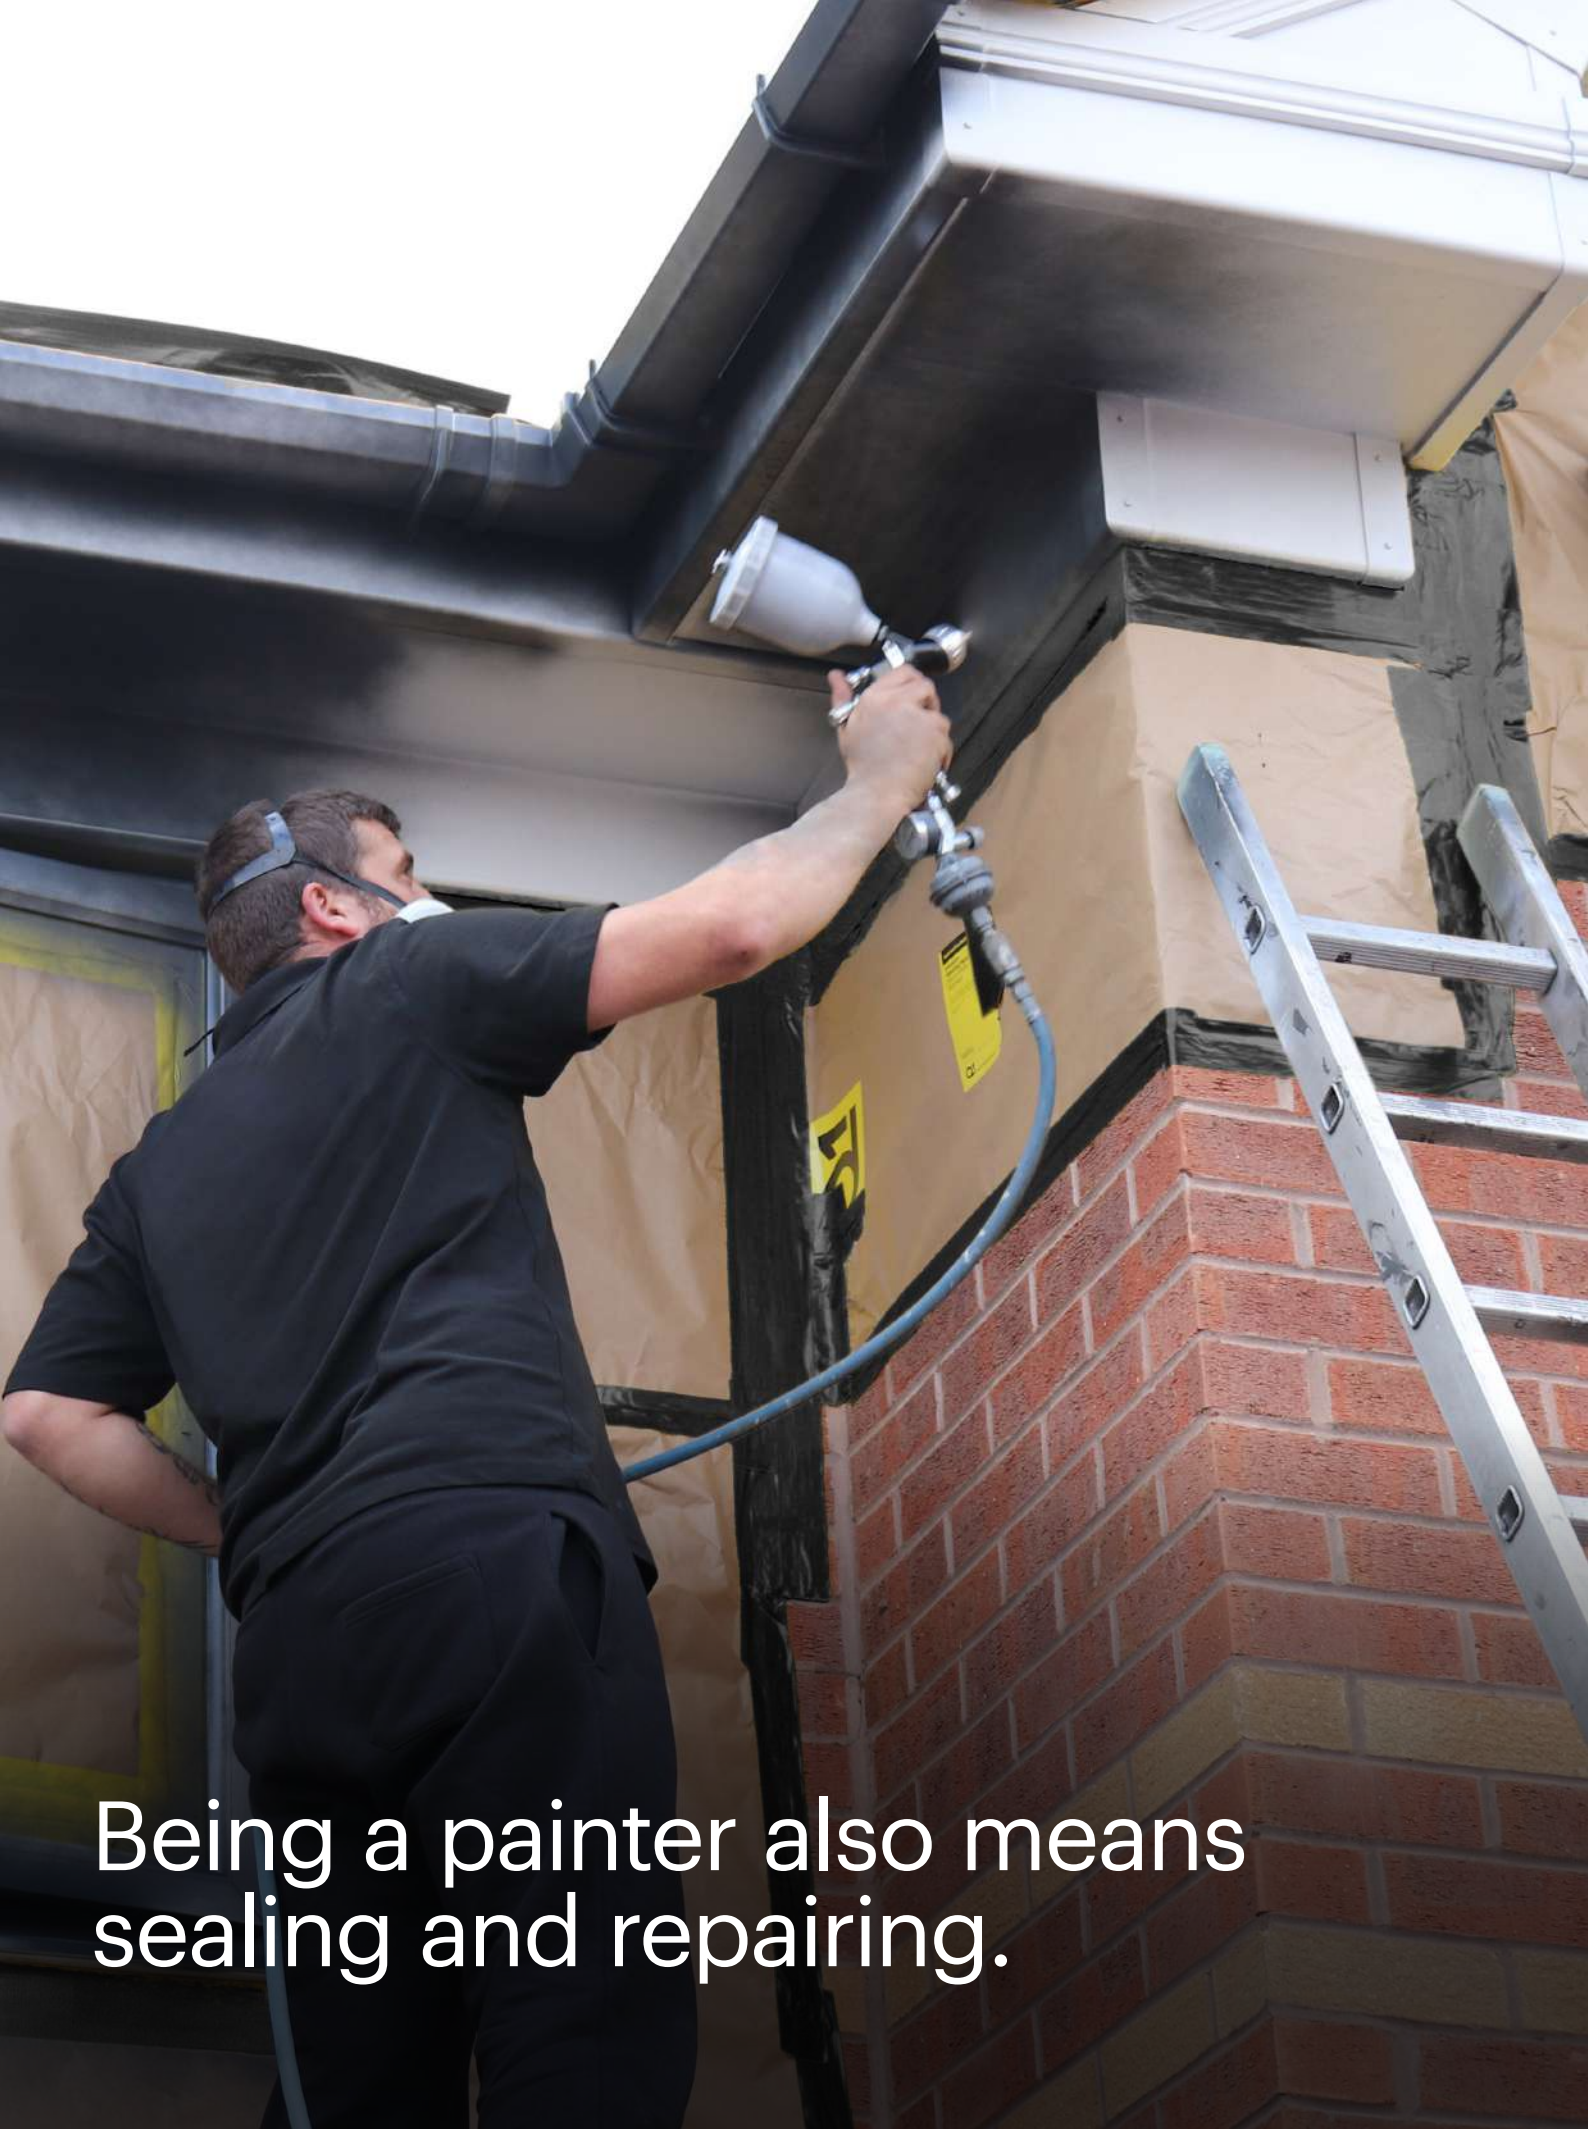

Features & Benefits

- Excellent conformability
- Perfectly waterproof
- Suitable for multiple surfaces

Characteristics	Total thickness	Adhesion / Steel	Elongation at break
Units	154 µm	10.5 N/cm	20%

Being a painter also means sealing and repairing.

Q1® Scrim Tape

Q1® Scrim tape is a high quality scrim tape made of fiberglass and coated with adhesive glue on one side. It is used on the plasterboard gap to strengthen the strength of the wall.

This product is the perfect tool for any plasterboarding project, joining your boards and providing a smooth finish.

The mesh of the tape allows it to contain the jointing compound during plastering, creating a strong joint and the holes between the threads allow the plaster to cover all areas for a seamless finish when skimmed.

In fact, the threads act as a reinforcing mesh and stop the joints from cracking as the adjacent plasterboard panels move with expansion, contraction and human action.

Features & Benefits

- Self-adhesive and can be re-positioned
- Eliminates need for pre-plastering
- Extra reinforcement when joining plasterboards
- Eliminates blisters and bubbles

Part#	Size	Rolls/Multipack	Rolls/Box
Q1ST48	48mm x 90m	-	24 rolls/ box

Characteristics	Total Weight	Tensile strength warp	Tensile strength weft

need to cover
surfaces is
right here.**

Q1® Carpet Protection Film

Q1® Carpet Protection Film, a durable and reliable solution tailored for painting and renovation projects. This specialized film is meticulously crafted to offer exceptional carpet protection, making it the ideal choice for covering various types of carpets, including smooth, highly resistant to wear, long-haired natural fabric, and synthetic fabric carpets.

Designed with precision, the Q1® Carpet Protection Film boasts remarkable adhesive properties, ensuring a secure and effortless application to carpets of all textures and materials. Its advanced formulation grants it excellent water resistance, allowing it to withstand potential spills and moisture during construction and renovation activities, thus preserving the pristine condition of the underlying carpet.

Notably, this carpet protection film facilitates easy handling and repositioning during masking operations. Professionals can confidently maneuver and adjust the film as needed to achieve precise coverage without compromising its integrity or leaving unsightly adhesive traces behind.

Features & Benefits

- Easy to use
- Excellent water resistance
- Prevents paints spills and liquids getting through
- Excellent conformability on different carpets
- Reverse wound for easier application

Part#	Size	Rolls/Multipack	Rolls/Box
Q1CA09	600mm X 25m	6 rolls/ Multipack	-

The excellence in Carpet protection

Q1® Pre Taped Washi Film

Pre-taped with Q1® Precision Line Masking Tape, this electrostatically treated masking film prevents over-spray flaking and drips, which means you can re-coat and clean up with complete confidence during any paint application.

Ideal for quickly and easily masking both large and small surfaces whilst creating precise razor-sharp lines, this film is available in a variety of sizes, including; 550mm x 33mm which is perfect for windowsills and skirting boards, a 1400m x 33mm option for windows and kitchen cupboards and larger 2100mm x 20m or 2700mm x 16m for doors, walls and cabinetry.

It's suitable for both indoor and outdoor use and is removable without a trace of adhesive residue for up to six months after use (indoor only). To make application easier, why not use it alongside the Q1® Masking Film Dispenser.

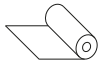

Features & Benefits

- Different dimensions for covering both small and large surfaces
- Pre-taped with Q1® Precision Line Masking Tape for razor sharp lines.
- Suitable for indoor and outdoor usesurfaces
- Quick and fast masking
- Unfolds easily and sticks well to surface

Part#	Size	Rolls/Multipack	Rolls/Box

Q1WMF2100	2100mm X 20m	-	20 Rolls/ Box
Q1WMF2700	2700mm X 16m	-	20 Rolls/ Box

Masking,
in half the time.

Q1® Pre Folded Masking Film

Q1® Pre-Folded Masking Film is a resistant masking film with a special treatment to protect surfaces from paint overspray and flaking.

Thanks to its static cling, the film adheres easily and steadily on the surfaces and stays in place during paint spraying and in windy conditions.

This product is ideal for multi-coat paint applications because it avoids re-masking operations and prevents liquids and paint bleed-through, saving time and money.

Q1® Pre-Folded Masking Film is best suited to Q1® Masking Tapes and the most common Hand Masker machines on the market.

Features & Benefits

- Special protection treatment against paint overspray and flaking
- Prevents liquids and paint bleeding
- Static cling allows safe placing even in windy conditions
- Ideal for spray painting and multi-coat paint applications
- Use with Q1® Masking Tapes and the most common Hand Masker machines

Part#	Size	Rolls/Multipack	Rolls/Box
Q1FMF154	610mm X 54m	-	24 Rolls/ Box
Q1FMF254	1210mm X 54m	-	12 Rolls/ Box

Corona[®]

Pre-Folded Masking Film
610mm x 54m | 24inch x 180ft
10µm

Prefolded, unfolds when released
Corona treated for maximum paint adhesion
Don't use on uncured or wet surfaces
Use printed side facing out

CAUTION: Polyethelene plastic sheet excludes air and should be kept away from children, as suffocation could result.

Excellent adherence,
right away.

Q1® Cover All Dust Sheet

The perfect solution for rapid coverage of large areas, the Q1® Cover All protects carpets, floors and furniture from paint, dust and spills even in the messiest of projects.

Thanks to an exclusive patented system it is faster and easier to unfold and open out compared to others products.

This sheet is electrostatically charged so that it doesn't slip or flutter when you pass by.

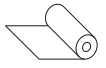

Features & Benefits

- Fast and easy unfolding
- Provides furniture and floor protection from overspray, dust and spills
- Ideal for properly covering and draping goods in storage
- Excellent adherence on all surfaces

Part#	Size	Rolls/Multipack	Rolls/Box
Q1CA09	4m X 25m	-	15 Rolls/ Box

Easy to unfold,
easy to place.

Q1® Floor Pro Board

Q1® Floor ProBoard is a reusable paper which provides a durable temporary floor protection for painting and renovation projects.

Compared to traditional floor protection boards, this masking paper is characterized by a longer length and lighter weight which make it very easy to use and reposition during masking operations.

Q1® Floor Pro Board is made of 100% recycled and biodegradable paper which protects any surfaces from paint spills and blocks moisture and liquids to get through to the surface, offering superior performance even in wet conditions.

For a stable and safe fastening, we recommend to use 3450 Q1® Multiple Purpose Indoor Masking Tape.

Features & Benefits

- Prevents paint spills, moisture and liquids getting-through
- Easy-to-use and reusable product
- Longer and lighter compared to traditional floor boards
- 100% recycle and biodegradable paper

Part#	Size	Rolls/Multipack	Rolls/Box
Q1FPB	90cm X 45m	-	-

The game changer
in floor protection.
Reusable and recycled.

Q1[®] Top Pro Board

Q1[®] Top ProBoard is a high resistance paper for painting and renovation projects, especially for kitchen makeovers.

This product is engineered as temporary protection for worktops and cupboards, easily fitting through doorways and proving its versatility in hallways.

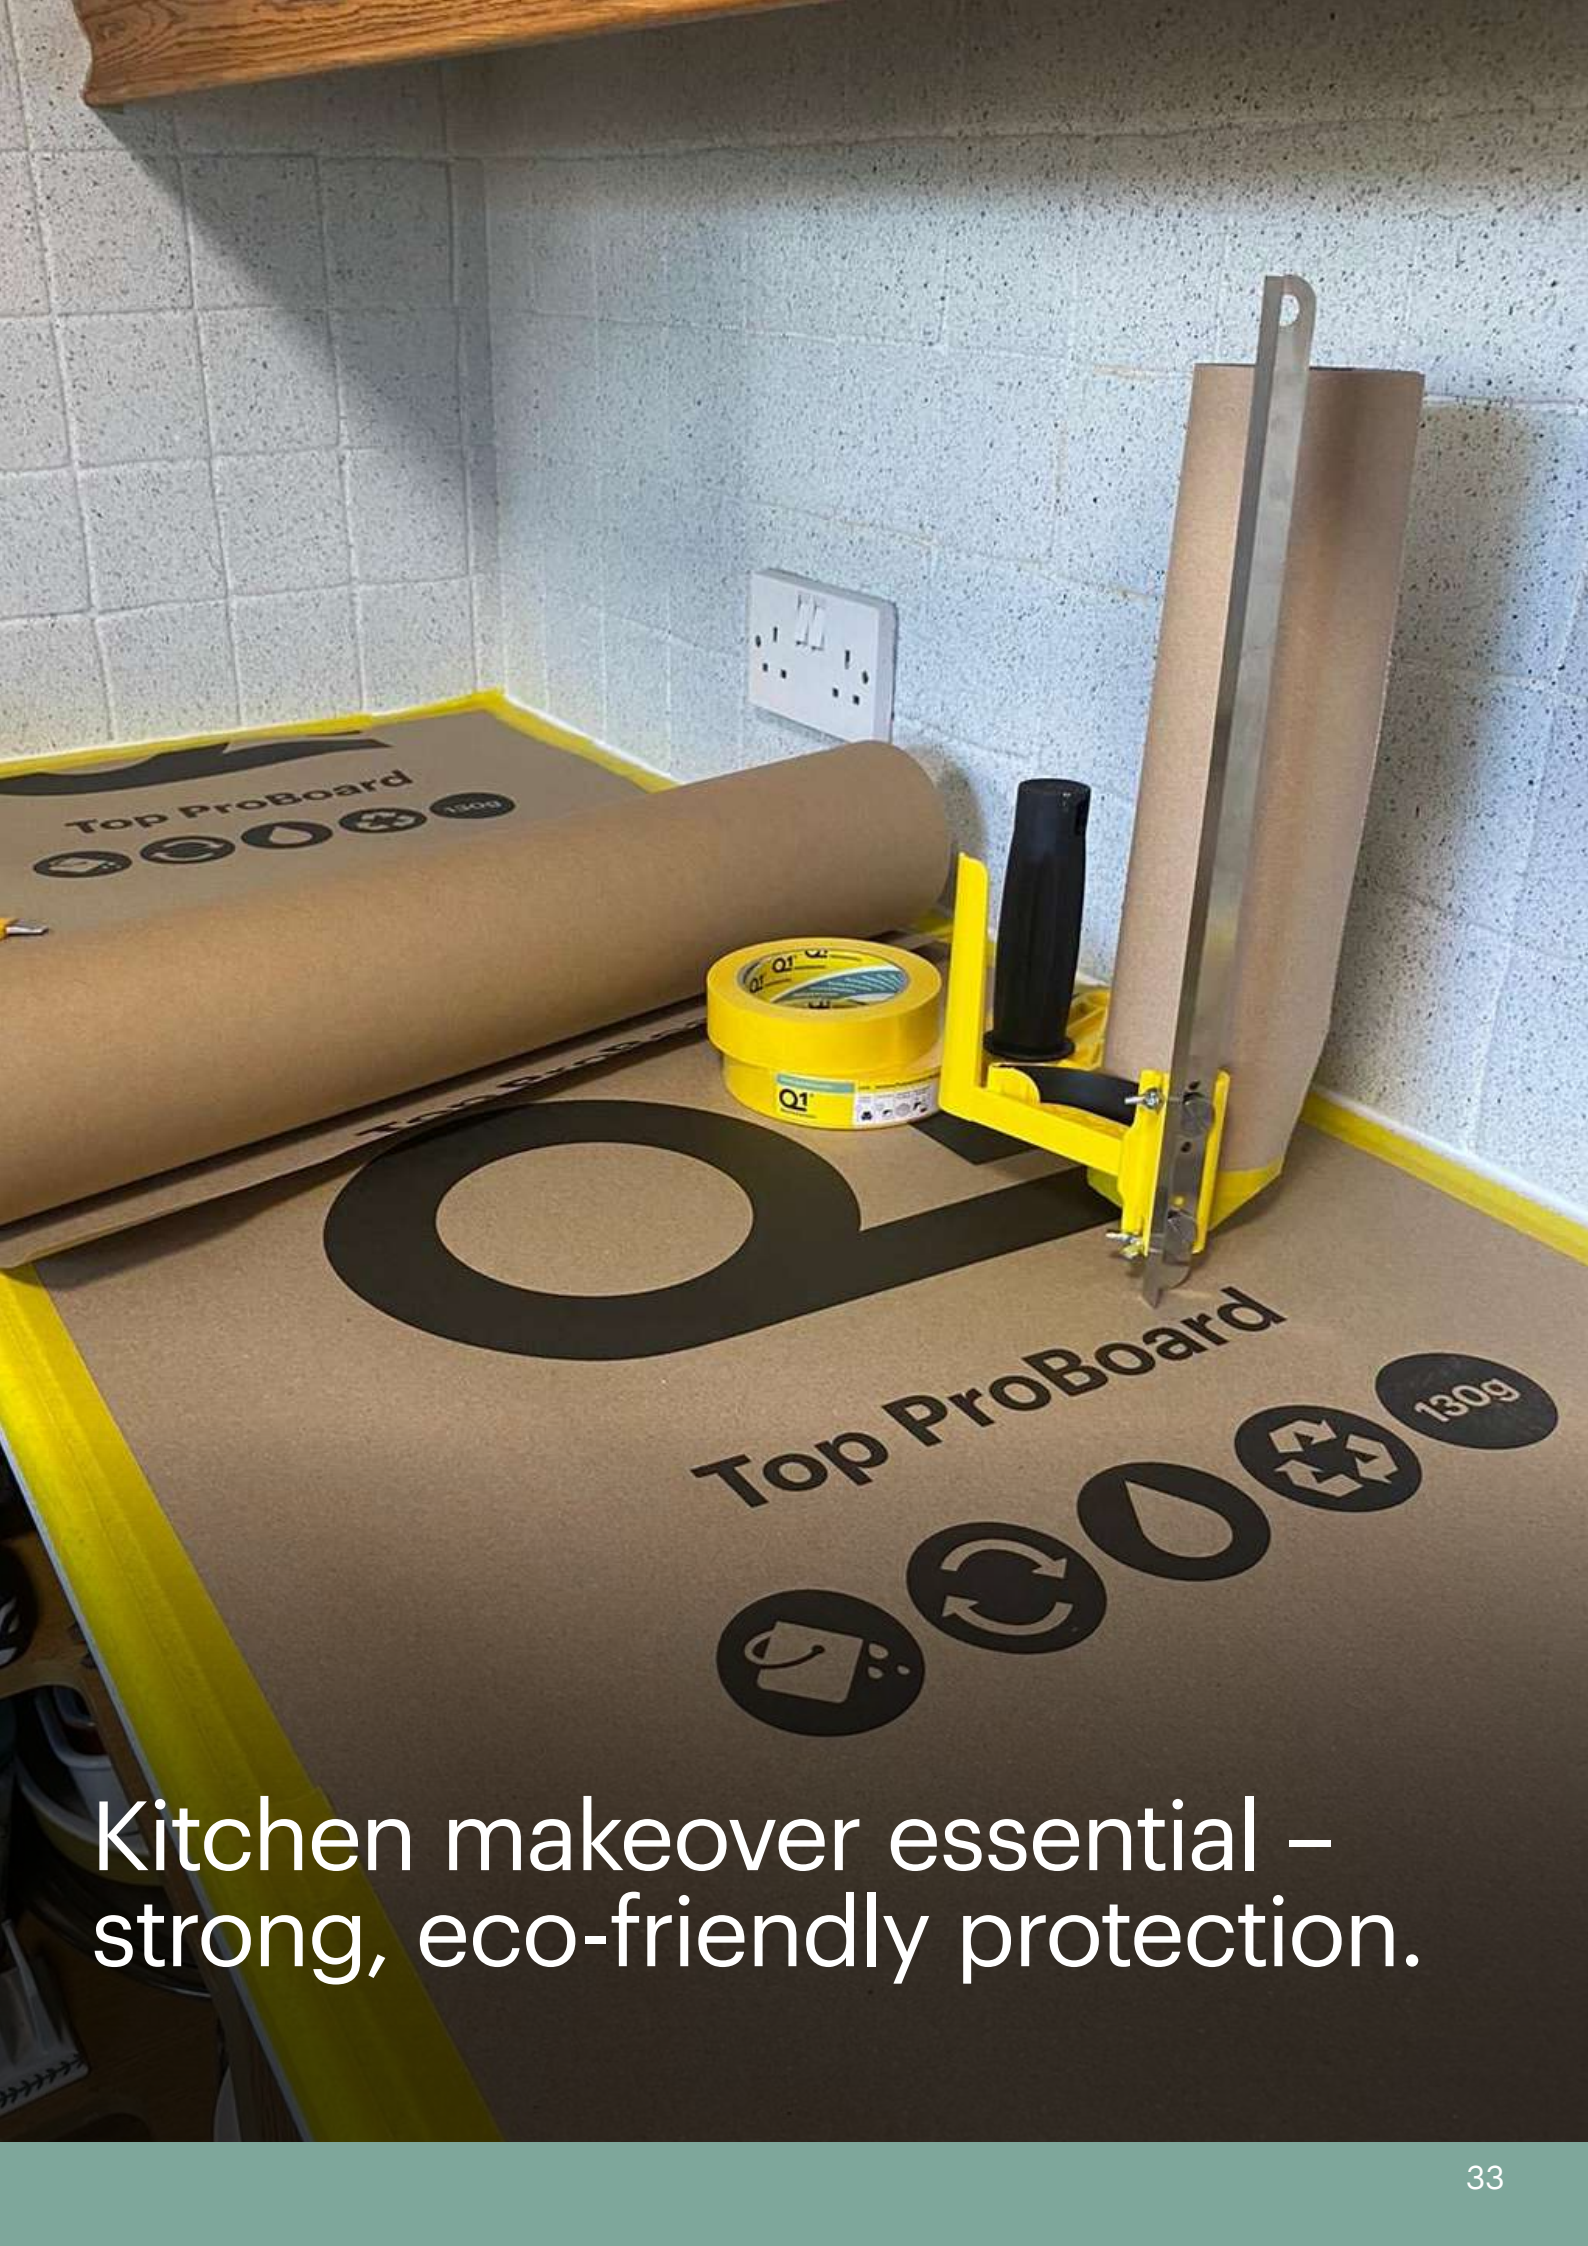

Q1[®] Top ProBoard is made of 100% biodegradable paper which protects any surfaces from paint spills and blocks moisture and liquids to get through to the surface.

Features & Benefits

- High resistance paper for painting and renovation projects
- Especially suitable for kitchen makeovers
- Engineered for temporary protection of worktops and cupboards
- Easily fits through doorways
- Protects surfaces from paint spills.

Part#	Size	Rolls/Multipack	Rolls/Box

Kitchen makeover essential – strong, eco-friendly protection.

Q1® Pre Taped Masking Paper

The ideal solution for protecting surfaces against paint splatters or drips, the Q1® Pre-taped Masking Paper is for interior use during any painting and decorating project.

Measuring 180mm X 25m and 300mm X 25m, it is the right size for the protection of skirting boards, architraves, window frames and light switches.

It adheres without fault to wood and metal and conforms well to difficult curves or corners, featuring quick-stick, with reliable clean removal without leaving residue.

Features & Benefits

- Ideal for covering small surfaces
- Suitable for indoor applications
- Offers fast masking of critical areas
- Clean removal without leaving residue
- Flexible and conformable performance

Part#	Size	Rolls/Multipack	Rolls/Box
Q1MP180	90cm X 160m	8	40
Q1MP300	90cm X 160m	4	20

A time saver that fits in your hands.

Q1[®] Handy Masking Paper

High-quality masking paper makes masking up quick and effective for both brush and spray painting methods.

Suitable for both water and solvent based paints and available in two sizes, the Q1[®] Handy Masking Paper is ideal for protecting large areas from over spray as well as quickly covering beams, window sills and cornicing.

Standard 25mm core size fits all hand masking machines.

Features & Benefits

- Prevents paint spills, moisture and liquids getting-through
- Easy-to-use and reusable product
- Longer and lighter compared to traditional floor boards
- 100% recycle and biodegradable paper

Part#	Size	Rolls/Multipack	Rolls/Box
Q1MP15	15cm X 55m	6	-
Q1MP30	30cm X 55m	6	-

The ultimate large areas protection roll.

job routine
faster and well
organized.**

Q1® Hand Masker & Q1® Adjustable Blade

Q1® Hand Masker is a time-saving tool that combines masking tape with protective film or paper in one step, increasing efficiency by 50%.

Its versatility suits various surfaces, simplifying the masking process for walls, ceilings, trim, and windows.

The user-friendly design reduces complexity, aiding professionals in focusing on their work. This investment minimizes material waste and long-term costs.

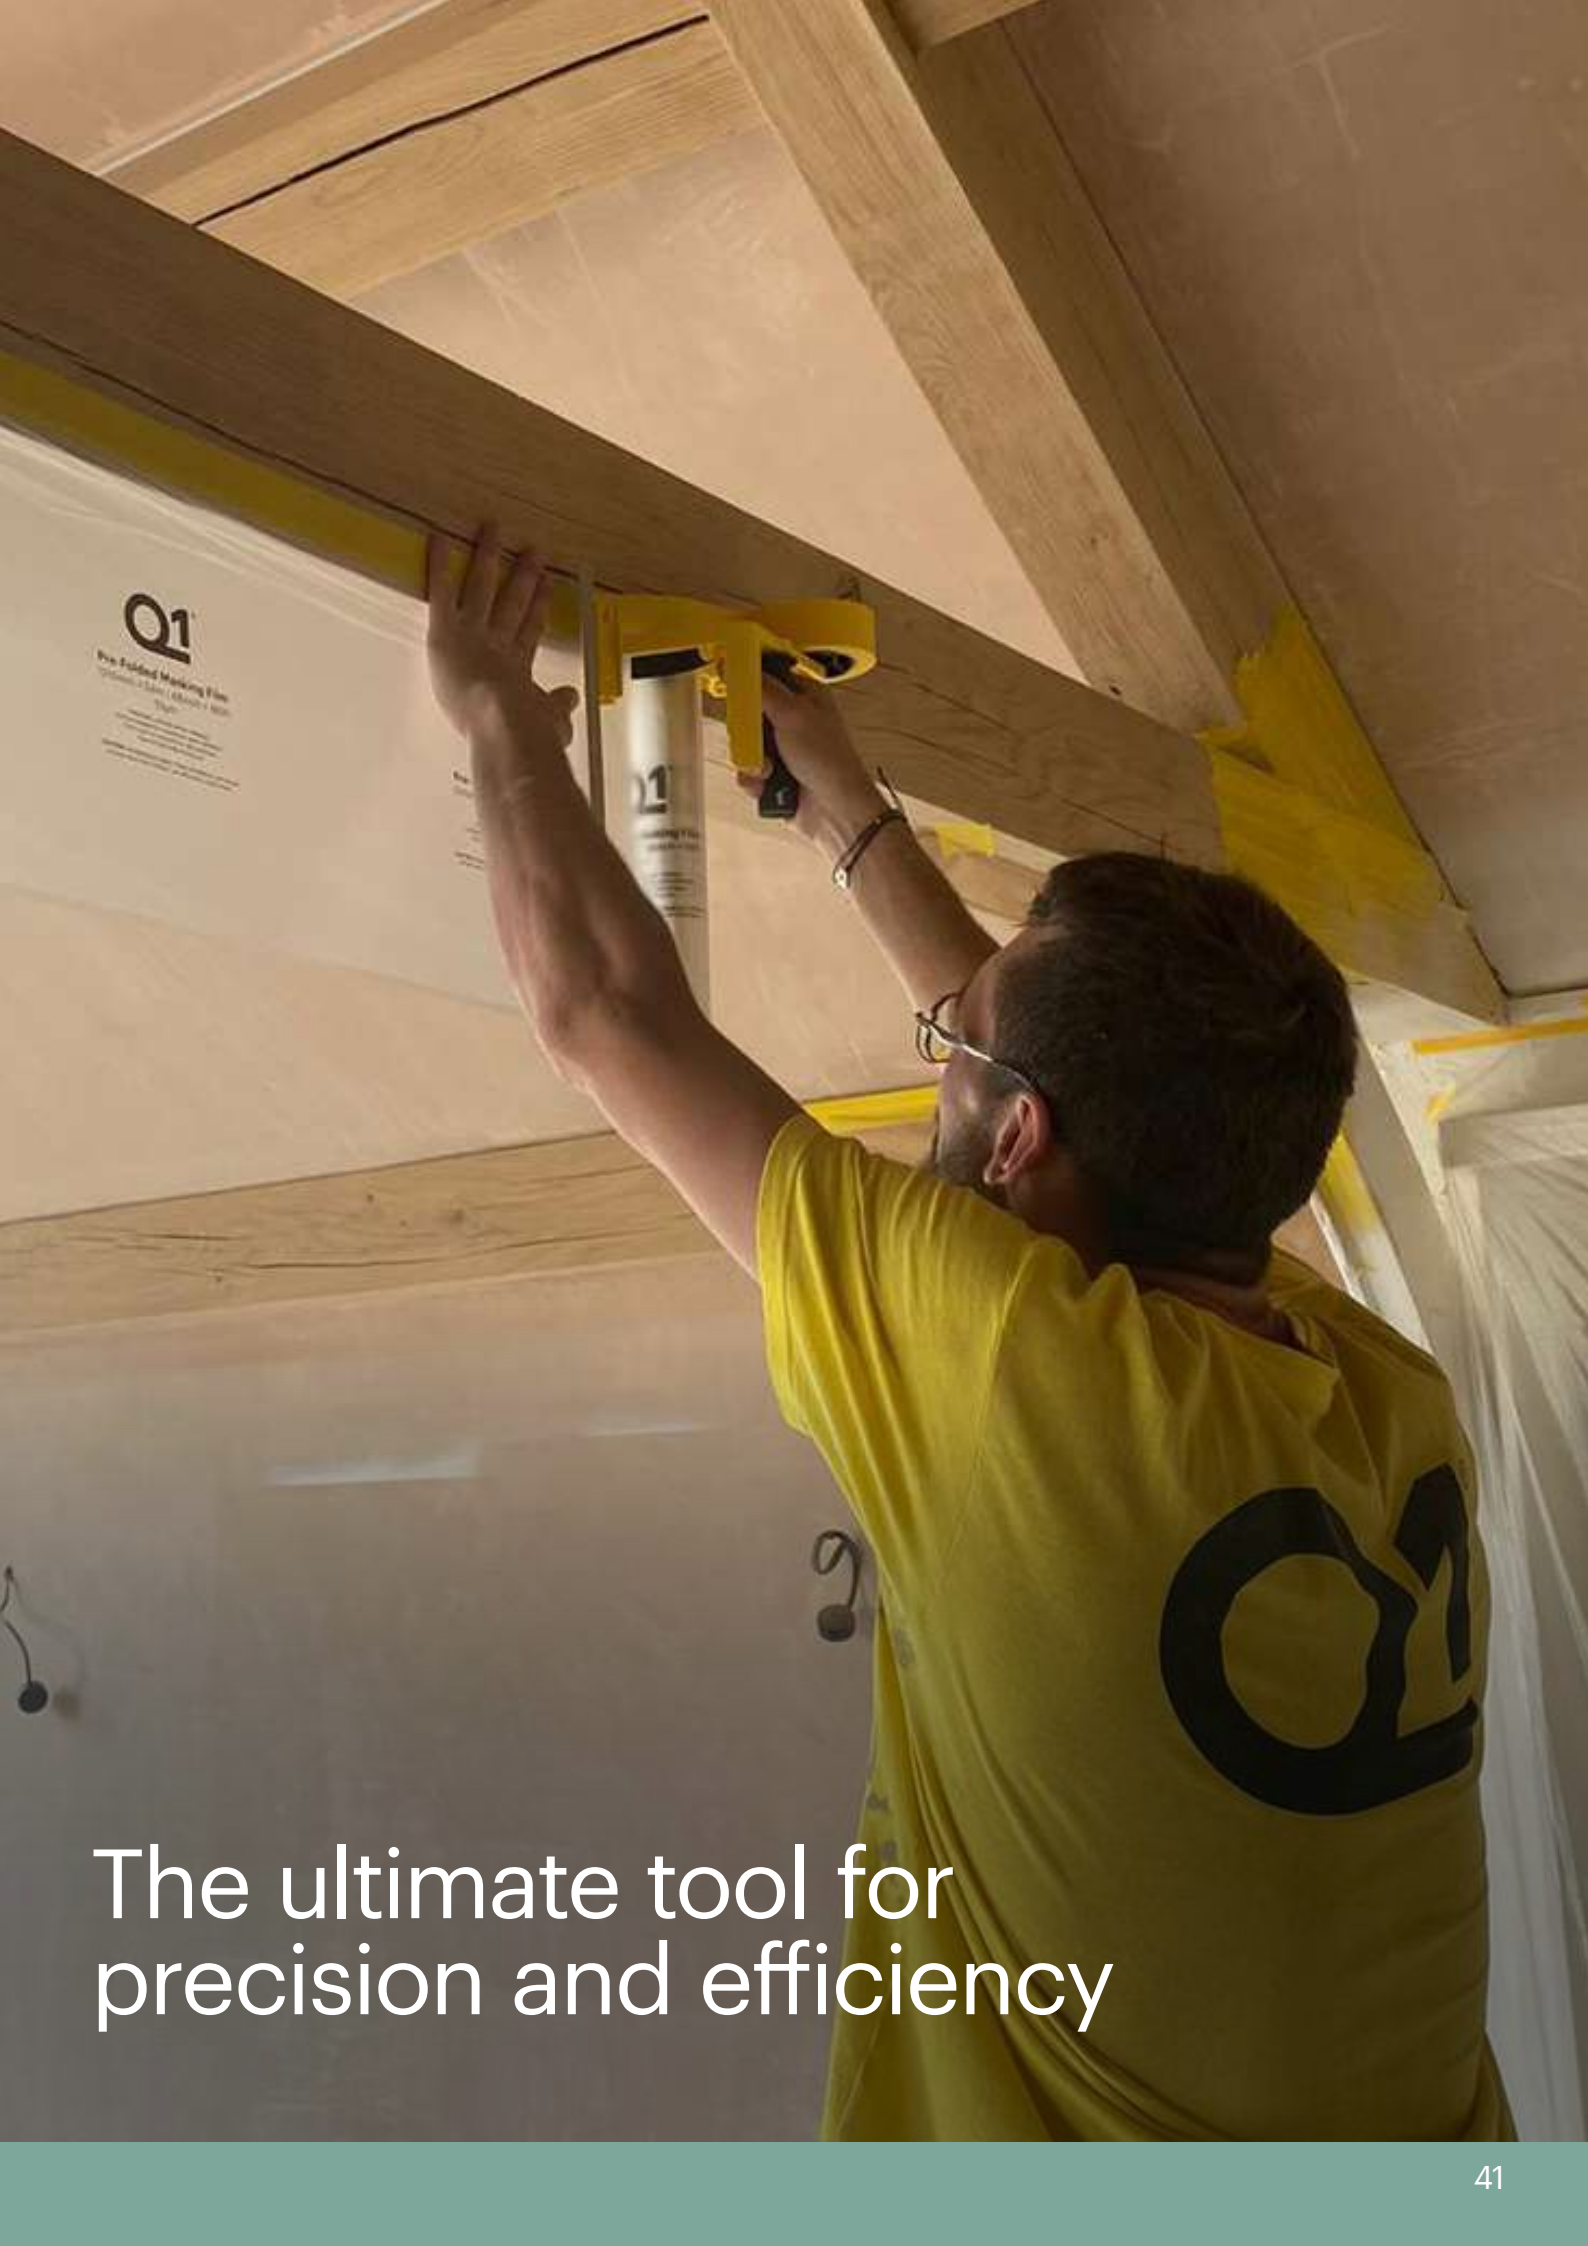

Q1® Adjustable Blade ensures precise masking by accommodating different tape sizes. The clip design enables smooth unrolling, while the adjustable blade setup involves simple screw adjustments for added flexibility.

Features & Benefits

- Unparalleled Precision
- Turbocharged efficiency & User-Friendly Design
- Special clip designed to ensure fluid unrolling of paper and film
- Designed for the comfort of right and left-handed professionals
- Versatile performance & cost-effective solution

Part#	Size	Pcs/Multipack	Pcs/Box
Q1HM01	-	-	6 pcs
Q1AB30	30cm/14"	-	60 pcs

The ultimate tool for
precision and efficiency

Q1® Systainer Tool Box

Designed to safely place and move painting tools and accessories, protecting them from dust, water, dirt and extreme temperatures.

Q1® Systainer is robust and shock-proof tool box but also lightweight and easy to handle, thanks to its practical handles. With its compact and standardized dimensions, Q1® Systainer is especially indicated for power tools and is suited for every vehicle equipment.

Thanks to its special modular construction, Systainers can be piled and coupled together to have more storing space.

Features & Benefits

- Shock-proof and robust
- Lightweighted (only 1,70 Kg)
- Two practical handles
- Standard and compact dimensions, suitable for every vehicle equipment
- Stackable and combinable to have more storing space

Part#	Size	Depth	Weight
Q1SYS187	396mm X 296mm	187mm	1,70 kg
